

## Лабораторна робота №16

### РОЗРОБКА ГРАФІЧНОГО ІНТЕРФЕЙСУ КОРИСТУВАЧА

**Мета.** Придбання навичок використання засобів клієнтських технологій (Client Technologies) платформи Java SE.

#### **Вимоги:**

Розробити графічний інтерфейс користувача для програми рішення попередньої лабораторної роботи з використанням засобів JavaFX.

### ОПИС ПРОГРАМИ

#### **Ієрархія та структура класів**

Pumnya16 – Точка входу в програму

EventSheduler – Клас, що реалізує захід

Util – Утилітарний клас

FXMLController – Абстрактний клас-контролер

GreetingPageController – Клас-контролер сторінки-вітання

MainPageController – Клас контролер головної сторінки

AboutPageController – Клас контролер сторінки «About»

## ВИСНОВКИ

При виконанні лабораторної набуто практичних навичок роботи з JavaFX. Створено програму-планувальник заходами. Розроблений функціонал: створення заходів, видалення заходів, пошук заходів по всім характеристикам, збереження у файл, зчитування з файлу. Також розроблено додаткову сторінку «About», де коротко описано програму, та наведено інформацію про автора.
